CEO MONTHLY

DR. MOHAMAD HAMADE

Follow me on  

A lot has happened around us since I was appointed as CEO of Amanat Holdings earlier this year. In this introductory edition of my monthly letter, I will offer my perspective on the points below:

- Defining business resilience in a global pandemic
- Why Amanat's stock price has outperformed in 2020
- How we are preparing for the journey ahead

Friends,

It is my honour to lead Amanat today as CEO. To provide clarity and guidance to our shareholders and stakeholders, every month I will be sharing my thoughts on the markets and sectors we operate in and my perspectives on the future direction of our business. This monthly letter will be complementary to Amanat's market disclosures and will not contain material information.

It has been an intense period to say the least, given the global repercussions of the COVID-19 pandemic. I was fortunate to have been very familiar with the firm from my tenure as Chief Investment Officer and to work with such a strong team at Amanat and our portfolio companies.

As we watched the repercussions of COVID-19 play out across virtually every aspect of life, our immediate focus was to protect the health of our employees, and the patients, practitioners, students and teachers connected to us, and to keep our portfolio companies operating. It is simply not possible to pause the delivery of healthcare and education services — these two sectors sit at the center of societal wellbeing.

“ Our immediate focus was to protect the health of our employees, and the patients, practitioners, students and teachers connected to us, and to keep our portfolio companies operating ”

Dr. Mohamad Hamade | Chief Executive Officer
